Interactive 3D-Smartbooks

The books in our unique Click n’ Learn series simultaneously offer the benefits of both printed books and mobile devices to acquire more extensive knowledge. The 20 titles cover several age groups and subjects.

Series of 20 titles with 800 3D scenes
Each book in the series presents a different topic in a compelling, well-structured and easy-to-read fashion. By scanning the QR codes found on the pages, students are just a click away from accessing the 3D scenes which provide an interactive way of exploring the topics.

Students can even walk around in this virtual world using a VR headset and get a first-hand experience of what they are reading about in the books.

In the 3D scenes readers can
- rotate, zoom, see cutaway views
- watch narrated animations
- walk around with the built-in VR feature.
Dealing with the topics of science, technology, history, and architecture, these books can be used in the classroom or at home for deepening knowledge in a unique and playful way. Students can explore not only the past and the future, but also the microscopic world, the human body, and distant celestial objects.

The 3D scenes can be opened with the mozaBook application, which is downloadable free of charge.
